

Powerful Event and Attendee Management

Putting the power of SalesLogix Customer Relationship Management and Eventix Enrollment together means that you can store all your Account, Contact, Opportunity, and Event information in one database. No longer will you have to do double data entry to maintain event, attendee, and customer information.

Eventix Enrollment will make your event and attendee management a whole lot easier.

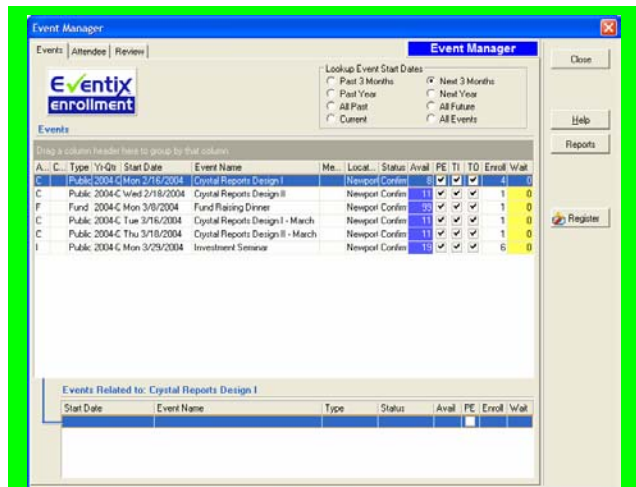

In addition to tracking attendees, you can manage Wait Lists, Material Lists, Checklist, Event Staff schedules, Facilities used, and related events.

Tasks such as printing name tags and sign-in sheets that are a real pain and take up a lot of time can now be accomplished easily with just a few mouse clicks.

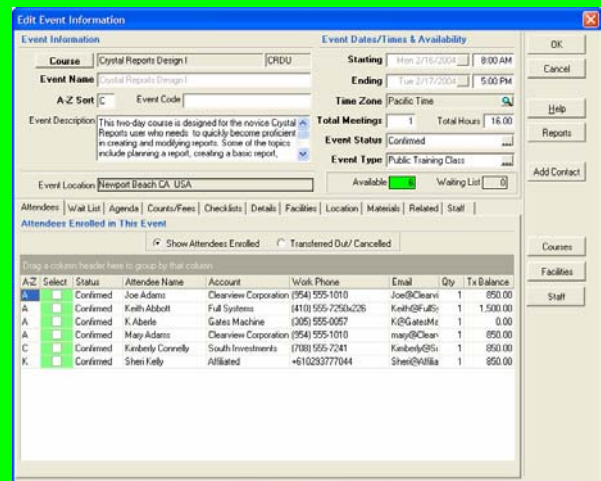

You can generate reports off your past event records to show which events were well attended and how much revenue they brought in.

You can add more data fields and custom Crystal Reports® to track and report on the specific information that you need. Eventix Enrollment is completely customizable.

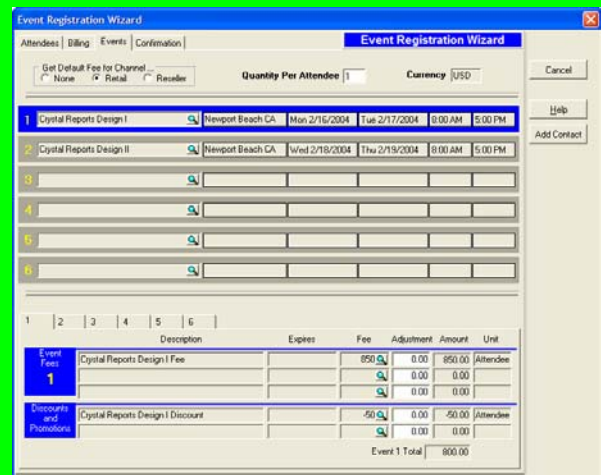

- Know at-a-glance which events still have space available
- Create contact records for new attendees after you have chosen an event
- Quickly enroll new attendees into one or more events with the Registration Wizard
- Create Invoices for each attendee with multiple fees or discounts.
- Easily capture one or more attendee payments in different currencies
- Each event can have its own Checklist of to-do's and Materials required lists
- Write mail merge letters with just a few mouse clicks
- Easily print sign-in rosters, name tags, name plates, certificates, and much more
- Track enrollments for events presented by a 3rd party
- Use the built-in waiting list to fill events when attendees cancel
- Manage your staffing schedule and avoid event conflicts
- Track facility usage – know when a facility is available
- See, on one screen, all events a contact has previously attended and is scheduled to attend

One click shows you the upcoming events and the number of available seats
