

Infor CRM and Pacejet Shipping

Overview

Simplesoft Solutions, Inc. has created integration with Infor CRM and Pacejet as a collaborative process to generate more accurate quotes that include a real-time shipping calculation. The integration focuses on 3 main areas:

- Utilizing native CRM data and built in API capabilities
- Utilizing Pacejet inherent landing pages and utilities
- Collaborative information ported back to the CRM deliverable quote

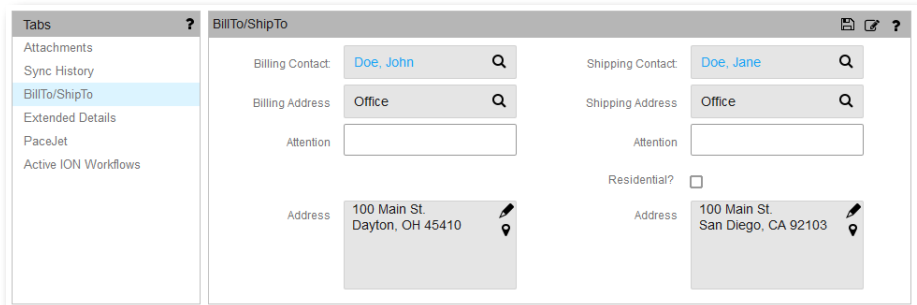

About Pacejet

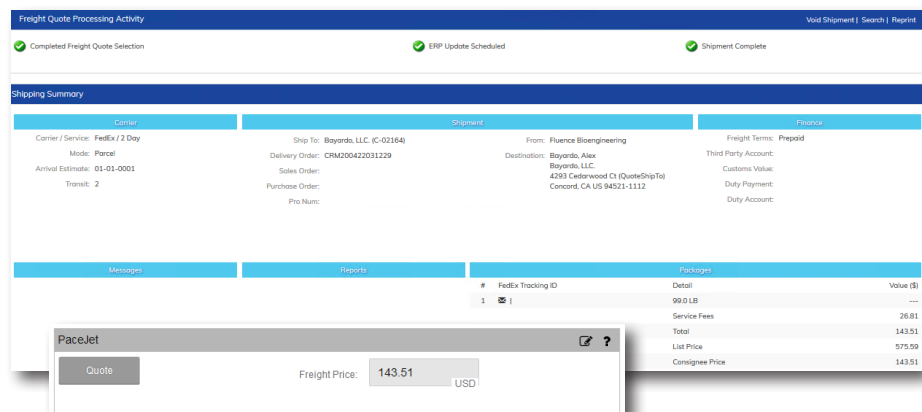

- Pacejet (www.pacejet.com) is an innovative, cloud-based global shipping software company that helps businesses transform shipping from a business necessity into a strategic advantage.
- Together with PaceJet, Simplesoft Solutions, Inc. has worked to make the quoting process as seamless as possible with the most accurate shipping information

Integrate Shipping Calculations

- Shipping costs have become a vast arena for competitive costs
- The ability to offer the best method for shipping adds the competitive edge to your quotes
- Integrated process improves user adoption and speeds quoting process
- Single-source and cohesive information in the CRM allows for quick retrieval of customer specific information
- Repeatable and refined business process provides consistent delivery of information to customers
