

CRM-based project, time and expense management solution for the mobile workforce

TimeLinx Mobile™ powered by Sage SalesLogix

The most powerful CRM system and CRM-based project management platform has come to the world of tablet devices.

TimeLinx Mobile combines Sage SalesLogix Mobile with TimeLinx to bring a full-featured project management platform to mobile phones and tablets, providing access even where an Internet connection is not available. For your mobile team, TimeLinx Mobile enables full visibility, maintenance and management of TimeLinx projects, intelligent time and expense entry, issues tracking and ticket creation and management – everything necessary for the mobile workforce.

Many mobile devices capture time. Many web solutions capture time and expenses. TimeLinx Mobile does so much more by integrating project and service records with your CRM customer database and incorporating the full logic of our rules-based TimeLinx Revenue Optimization Engine™.

- Adds mobility to Sage SalesLogix as an extension of SalesLogix Mobile
- Edit and update Project Details from the field
- Easy global Time Entry with Notes – instantly!
- Capture Expenses without cumbersome Expense Reports
- Track Issues and create Tickets in real-time for improved customer service
- Wireless technology means no information delays
- Compatible with the TimeLinx rules-based Revenue Optimization Engine™
- Drive data directly to your Sage SalesLogix LAN, Web, or Cloud system
- TimeLinx security controls protect unauthorized user access

Simplesoft Solutions is a customer relationship management software and business consulting firm providing implementation, integration, development and training of Sage SalesLogix, Sage CRM and the complimentary add-on productivity solutions associated with both. We have been supporting the sales, marketing, and customer service business consulting needs of clients since 1993.
